

Thinking vegetable seeds? Think **Terranova.**

Hybrid Sweetcorn

Buffalo

- Buffalo is an ideal variety to start the season with.
- Early season maturity is approximately 4 to 5 days earlier than Springfield in early season crops.
- Very good cob length averaging 20 to 21 cm and 50mm cob diameter.
- Dark green husk with good husk extension protecting cob tip. Large flag leaf.
- Good tip fill with cylindrical cob shape. Row count 16 to 18.
- Rust resistant.
- Grower trialed as TSC15067

Hybrid Melon

Caribbean Queen RZ

- The largest melon in the RZ "Caribbean" series with average fruit weight of 2.2kg.
- Very good leaf cover allows the plant to perform well even under high disease pressure, ensuring good quality fruit are produced.
- Firm flesh increases shelf life and flexibility at harvest.
- High brix contributes to excellent flavour. On average approximately 2 Brix higher than standard cantaloupe.
- Suitable for processing with its smooth skin and small seed cavity.
- Disease Resistance: HR:Fom:0,1,2 IR:Gc (ex Ec):1/Px(ex Sf):2,3,5

Hybrid Watermelon

Tigrinho RZ

- Micro seeded, hybrid watermelon.
- Early maturing.
- Very small "micro" seeds, for improved eating quality.
- Glossy dark green skin with dark red internal colour.
- Thick tough rind that does not shatter when cut.
- Sweet crisp texture with high brix, on average 11-12°
- Average fruit weight 3 to 4 kilos, dimensions 20 x 19 cm.

Hybrid Pumpkin

Nelson

- Early maturing, bush type.
- Vigorous and high yielding.
- Medium storage for early sales.
- Can be grown at high populations for increased yield.
