

Thinking
vegetable
seeds?

Think
Terranova.

Stoat RZ

Hybrid Spinach

- Very dark green oval leaf shape with a medium savoy
- Very uniform and upright plant habit
- Holds leaf size well for a wider harvest window
- Slower growing variety best suited to summer harvest
- Robust leaves with a high dry matter that handle the washing and drying process very well
- Strong resistance to leaf diseases downy mildew and Stemphylium vesicarium
- Very strong resistance to Fusarium
- Resistances: HR Pe:1-6, 8-18/Sv IR Pe:7, 19, 20.

Additional comments and cultural notes

Resistance key:

- HR = High Resistance IR = Intermediate Resistance
- Pe = Peronospora effusa (ex Peronospora farinosa f. sp Spinaciae)
- Sv = Stemphylium vesicarium

SOWING RATE Ideal population is 800 to 1,000 seeds per m²
Higher populations will accentuate narrow leaves
